Over 300,000 participating dental offices nationwide participate with the national Delta Dental system, although you may choose any fully licensed dentist to render necessary services.

Carryover MaxSM is easy and automatic.

- Eligible patient is treated by a Delta Dental Premier® dentist who does not participate in Delta Dental PPO or by a participating specialist, or
- Surgery or periodontal scaling and planing in the past. Details on how to qualify can be found in your benefit booklet.
- If you have been treated for periodontal (gum) disease in the past. For the additional dental cleaning and/or periodontal maintenance procedures to be covered, you must have had periodontal surgery or periodontal scaling and planing in the past. Details on how to qualify can be found in your benefit booklet.

This overview contains a general description of your dental care program for your use as a convenient reference. Complete details of your program appear in the group contract between your plan sponsor and Delta Dental of New Jersey, Inc. which governs the benefits and operation of your program. The group contract would control if there should be any inconsistency or difference between its provisions and the information in this overview.

During your FIRST appointment, tell your dentist that you are covered under this program. Give him/her your Group's name, its Delta Dental Group Number and your Member ID number.

Visit your own dentist. If you do not have a dentist, there is a directory available with your plan administrator listing participating dentists. You may call 1-800-DELTA-OK and a list of participating dentists located in your area will be mailed directly to your home, or you may access our Website at www.deltadentalnj.com.
